Technical data sheet

Product	MARBOCOTE W 2110
---------	------------------

COMPOSITION

- Synthetic polymers emulsion

APPLICATION

- Semipermanent water based release agent for silicone rubber

CONDITION OF USE

Suggested dilution	1:10
Application	By spraying with airmix system with 0.5 – 0.7 mm nozzle.
Note	Keep the product away from freezing

Properties:

Aspect	Light yellow liquid
Ph	9.5 – 11.0
Density	1.0 +/- 0.1 kg/ lt
Odour	mild

Benefits:

Contains no silicone
Reduces mould build up reducing mould cleaning cycles
Excellent release on silicone rubber
Reduces defect rates

Shelflife:

12 months in original sealed package at a temperature between 4°C and 30°C

Packaging:

- 20 Kg plastic pails
